## **Anti-Semitism in Hollywood**

Another Oscar night is about to occur with all the pomp and ceremony as per Hollywood protocol. No sooner were the nominees announced than a group of people began complaining that they are not being correctly represented at the Academy Awards. These concerns are being promptly addressed and corrected.

In the meantime, at the Golden Globes, the host appeared to take lightly the past actions of a hardcore anti-Semite, who by the fact he was an award presenter meant that he was freed of any guilt and is being given the opportunity to take another punch. It would have been so valiant for at least one Jewish Hollywood celebrity to stand up and walk out of the room, instead of listening.

## **Board finalizes plans for remaining Measure E funds**

At a study session Tuesday, the Board of Education determined how they plan on spending remaining Measure E bond funds. Hollywood has a new movie called *Zoolander*, with the principal actor being a Jewish boy who is starring with an anti-Semite married to another one. Even so, there she is on the big screen. Is she so unique that there is no one else to replace her? What a pity. Scarlett or Ann or Mila or Natalie and many others could have done it. Undoubtedly, next year's venue will be full of so-called good Jews ignoring and tolerating more irreverence.

This reminds me of two wonderful movie stars, both converts to Judaism, Elizabeth Taylor and Marilyn Monroe who are buried in Jewish cemeteries while Lauren Bacall, who was actually born a Jew was buried by in a Christian cemetery.

Just think for a moment what the BDS groups must think when they see that we are willing to "forgive" anti-Semitism so easily. It sets up a horrible example for the university students painting swastikas. Do I dare remember the part Hollywood played during the Holocaust?

Go figure our Hollywood icons?

Phase One costs for Beverly High are approximated at \$70.7 million; Beverly Vista, \$4.9 million; El Rodeo, \$76.5 million; Hawthorne, \$12 million; and Horace Mann, \$75.4 million.

Earlier this year, the Board directed Totum Consulting to explore Measure E's full modernization capacity. The Board and Superintendent Steve Kessler seemed satisfied with the final determination.

The funds needed to complete con-

struction projects at all five campuses total \$656 million. Newly appointed Chief Facilities Officer Eitan Aharoni listed off potential revenue sources, including donations.

Under the "Phase Two" package, the district is expected to spend around \$382 million to wrap up construction projects.

Former Chief of Facilities Tim Buresh, whose contract ended last December, is still employed by the district as a consultant on the Metro case.

## NOTICE OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that the Council of the City of Beverly Hills, at its meeting to be held on Tuesday, March 1, 2016, at 7:30 p.m., in the Council Chambers of the City Hall, 455 N. Rexford Drive, Beverly Hills, CA 90210, will hold a public hearing to consider:

A request to amend a Conditional Use Permit that authorizes vehicle servicing within the existing commercial building located at 9031 Olympic Boulevard (Infiniti of Beverly Hills). The previously approved Conditional Use Permit is specific to the Infiniti dealership and service center, and the proposed amendment would allow for the subject property to be occupied by Jim Falk Lexus in-lieu of Infiniti of Beverly Hills.

The project has been assessed in accordance with the authority and criteria contained in the California Environmental Quality Act (CEQA), the State CEQA Guidelines, and the environmental regulations of the City. The project qualifies for a Class 1 Categorical Exemption for an existing structure to which minor alterations and operational changes are proposed. Accordingly, the City Council will consider a recommendation to find the project exempt from the environmental review requirements of CEQA pursuant to Section 15301 of Title 14 of the California Code of Regulations.

At the public hearing, the City Council will hear and consider all comments. All interested persons are invited to attend and speak on this matter. Written comments may also be submitted and should be addressed to the City Council, c/o City Clerk, 455 N. Rexford Drive, Beverly Hills, CA 90210. The comments should be received prior to the hearing date.

Please note that if you challenge the Council's action in regards to this matter in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the City, either at or prior to the public hearing.

If there are any questions regarding this notice, please contact Andre Sahakian, Associate Planner in the Beverly Hills Community Development Department at 310.285.1127, or by email at asahakian@beverlyhills.org. Copies of the project application and associated documents are on file in the Community Development Department and can be reviewed by any interested person at 455 N. Rexford Drive, Beverly Hills, California 90210.

**BYRON POPE, MMC City Clerk** 

Councilmember Nancy Krasne remained vehemently opposed to an applicant-initiated ordinance that was eventually adopted with a second reading.

"There were so many things that were done that weren't permitted or up-tocode," said Krasne, who pulled the item from the February 16th staff report.

Alan Nissel, who has owned the multi-family residential project planned for North Crescent Drive for the past 12 years, proposed the ordinance. The four-story building exists in a three-story height zone.

"You have not shown good faith-you didn't show it then, and I have real concerns now about anything you plan to do in your public benefit," Krasne said earlier this month.

The ordinance, adopted with a 3-2 vote, will allow additions to multi-family buildings with legally non-conforming heights to match the existing heights of those buildings through the issuance of an R-4 Permit.

Vice Mayor John Mirisch and Krasne voted against the initiative.

## **Rodeo Drive Committee** suspends events, collects surplus funds

Due to the unexpected passing of Donahue Group CEO Craig Donahue last March, the Rodeo Drive Committee suspended some of its fiscal year 2014-15 programs, including the iconic Walk of Style event.

The suspension created a \$146,664 surplus. Around \$122,500 remains in the Walk of Style budget and \$24,000 in marketing and advertising.

At their meeting last week, the City Council supported an initiative to transfer \$24,000 of the funds into the current budget.

As the Rodeo Drive Committee will not be producing a Walk of Style event this year, the remaining \$122,500 was carried over to the fiscal year 2016-17 budget.

Donahue's involvement with the Committee spanned more than 20 years. During that time, he served as Executive Producer of both the Rodeo Drive Walk of Style and Concours d'Elegance.

Last August, the Committee announced

it had appointed marketing communications firm Battalion as its new public relations agency.

Formerly known as GCK Partners, Battalion works with global luxury, fashion and lifestyle brands and is led by partners Jim Kloiber and Marisa Drew.

## **Architectural Commission** orders final "cleanup" of **Rexford Dr. development**

A seven-unit residential building approved by the Architectural Commission in March 2008 was barely given the green light last week.

At a hearing in January, the Commission agreed that the multifamily development required some refining after the building's new owner, desiring a contemporary-style structure, had ordered a redesign.

"There's a little bit of massaging that needs to be done," Chair Andrea Gardner

Proposed rendering, 462 S. Rexford Drive

Apatow said last month.

The original construction, characterized as a Tuscan architectural style, had undergone substantial modifications since the Commission gave the green light nearly eight years ago.

In response to commissioners' comments, architectural and planning firm the Code Solution modified the plans, replacing the slate façade material with a fiber cement panel and embellishing the landscape with planters, among other changes.

"We recognize how much work you did from the last meeting," Apatow said last week

An urban design analysis concluded that the proposed design "continues to express a strong Contemporary statement through its use of high-quality materials.'

The use of corner windows and streetfacing balconies will help open the building to the neighborhood, creating a positive interior-exterior relationship, and will activate the streetscape.

Not entirely satisfied with the revised design, the Commission called for further amendments.

The refined design will be forwarded to city staff members and Commission Vice Chair Gidas Peteris for final review and approval.

## Board authorizes agreement with DLR Group for Beverly High perimeter fencing

At Tuesday's meeting, the Board of Education pushed forward negotiations with design firm DLR Group for creation of what is being dubbed a "security" fence for Beverly High.

The Board directed Totum Consulting to develop fencing plans for the high school in late January. Earlier this week, the discussion included the cost of conceptual design services, which is approximately \$12,000.

Principal Dave Jackson was given unanimous approval at a Beverly High

clearing 12 feet Feb. 13 at Cerritos College.

The previous record was 11-9 set last year. McKenna Caskey of Mater Dei also cleared 12 feet, but was declared the winner because of fewer misses among the four vaulters clearing 12 feet.

Block tied for second with Redondo junior Kaitlin Heri and Clovis West senior Shelby Noble.

What's Next?

The Normans are scheduled to compete in the Ocean League Season Opener at Culver City High School Saturday beginning at 8 a.m.

## **Boys' Lacrosse**

Beverly High is scheduled to open its season Monday by playing host to Westchester in an intersectional game set to begin at 4 p.m.

Steven Herbert has covered Beverly Hills High School sports for Beverly Hills Weekly since 1999. He has also covered college and professional sports for The Associated Press, Los Angeles Times and Washington Post. He can be reached at (310) 275-7943 or by email at styherbert@aol.com.

site council meeting earlier this year to address the Board about the matter.

Jackson said the site council backed a wrought-iron fence for the front of the campus and a chain-link enclosure for the back.

According to the staff report, the final design needs to align with the "historic characteristics" of the school. Fencing the iconic front lawn, a landmark since Beverly High opened in 1927, has been a controversial issue. Previous boards opted to keep the green space open.

Under the \$12,000 agreement, DLR Group will prepare three conceptual design options for the security fence.

**12:57 pm:** I park across from the Public Works Department building on Foothill Road a few minutes before my 1:00

1:00 pm: En the route to Public Works building, I bump Chavez, into Public Works Commission Chair Sandra Aronberg Public and

Information Manager Therese Kosterman. Chavez shows us the site of the city's upcoming off-leash dog park while we await interim Water Operations Manager Jack Merluzzo, one of the guides of the tour.

**1:05 pm:** Merluzzo arrives in a white Chevrolet Colorado emblazoned with the Beverly Hills logo. As interim Water Operations Manager—a position he has held for one year—Merluzzo oversees the city's water distribution system, which encompasses a water treatment center and 11 reservoirs.

Born and raised in Johnston, Rhode Island, Merluzzo

moved to California "This reservoir was in the 1970s and has been with the built in 1927, during City of Beverly the war period, Hills for approximately 20 years. and the roof of the reservoir was actually 1:10 pm: On the drive up to the camouflaged at one Cabrillo Reservoir, time because of World Chavez points out a nondescript hill War II' on the corner of -Interim Water Sunset Blvd. and Rexford Dr. which

The current roof, installed in the early 1980s, is a ridged aluminum construction.

**1:30 pm:** Rather than exhaust precious potable water, the city now utilizes 20,000 gallons of Cabrillo groundwater every week, Merluzzo tells me.

Aronberg draws our attention to a

wide pipe that runs along the top of the capped reservoir and carries water from a 20-foot-tall cylindrical gray tank at the base of the reservoir to a bright blue "holding" tank, the current distribution point.

In 1997, the City Council directed the Public Works Department to begin exploring the possibilities of local water development. The Council started soliciting bids from companies for the creation of a water treatment plant and groundwater pumping operations.

The water treatment plant and the Metropolitan Water District (MWD) are the city's chief water suppliers. The goal of the Water Enterprise Plan, implemented last year, is to scale back the city's reliance on outside sources.

Beverly Hills currently imports an average of 90 to 95 percent of its water supply from MWD.

**1:40 pm:** We return to the car and relish the scenic drive back to the Public Works building.

**1:45 pm:** During the drive, Chavez fills me in on the city's

Infrastructure Committee, which was formed by Mayor Julian Gold at the start of his term.

"The whole idea was to really understand—universally across the city—

> what all of the big infrastructure projects that people were interested in were," Chavez says. T h e C a brillo

Reservoir made the Committee's list of top priorities and Chavez

expects that the 2016-17 fiscal year budget will include funding for additional pipelines for the reservoir, so that groundwater can be carried to parkways.

**1:55 pm:** Merluzzo pulls in front of the Public Works Department building. Waving goodbye, I thank him for the informative tour.

But our excursion hasn't yet come to a close. Chavez leads me and Aronberg to the Public Works garages, where the various vehicles are stored, including a sparkling white behemoth responsible for power washing the city's streets.

**2:00 pm:** The tour ends at two shallow groundwater wells that were inaugurated earlier this year. The water from the wells will be tested for approximately one year, and if it meets the state's quality standards, the wells will supplement the city's local supply and decrease its reliance on imported water.

I thank Chavez and Aronberg for the educational outing, and then reach into my bag for a bottle of water. All that knowledge can make a girl thirsty.

### ORDINANCE NO. 16-O-2699

ORDINANCE OF ΔN THE CITY OF AMENDING BEVERLY BEVERLY HILLS HILLS MUNICIPAL CODE SECTIONS 10-10-3-2850 REGARDING 3-2804(B) AND THE HEIGHT LIMITS FOR ADDITIONS TO NONCONFORMING LEGALLY BUILDINGS IN MULTIPLE-FAMILY RESIDENTIAL ZONES

THE CITY COUNCIL OF THE CITY OF BEVERLY HILLS HEREBY ORDAINS AS FOLLOWS:

Section 1. On December 10, 2015, the Planning Commission held a duly noticed public hearing after which it adopted Resolution No. 1762, recommending that the City Council amend portions of Title 10 (Planning and Zoning) of the Beverly Hills Municipal Code to allow the Planning Commission to issue an R-4 Permit that would allow an extension of a legally nonconforming height on a multiple-family residential development (collectively, the "Amendments"). On February 2, 2016, the City Council held a duly noticed public hearing, received public testimony, and thereafter introduced this Ordinance.

Section 2. This Ordinance and the Amendments were assessed in accordance with the authority and criteria contained in the California Environmental Quality Act (CEQA), the State CEQA Guidelines, and the environmental regulations of the City. The City Council finds that adoption of the Amendments will not have a significant environmental impact and is exempt from CEQA pursuant to Section 15305 of Title 14 of the California Code of Regulations. The City Council finds that a Class 5 exemption is applicable to the amendment because the amendment results in minor changes in land use limitations pertaining to building height limitations in areas with an average slope of less than 20%, which do not result in any changes to land use or density. In addition, the Planning Commission adopted a Class 1 Categorical Exemption for the multi-family residential project associated with the amendment. Thus, the amendment is exempt from CEQA pursuant to CEQA Guidelines Sections 15305.

Section 3. The Amendments are consistent with the objectives, principles, and standards of the General Plan. Specifically, the Amendments are consistent with or advance the following General Plan Policies: LU 2.1 City Places: Neighborhoods, Districts, and Corridors. Maintain and enhance the character distribution built form scale and aesthetic qualities of the City's distinctive residential neighborhoods, business districts, corridors, and open spaces; Policy LU 2.4 Architectural and Site Design. Require that new construction and renovation of existing buildings and properties exhibit a high level of excellence in site planning, architectural design, building materials, use of sustainable design and construction practices. landscaping, and amenities that contribute to the City's distinctive image and complement existing development; Policy LU 5.1 Neighborhood Conservation. Maintain the uses, densities, character, amenities, and quality of the City's residential neighborhoods, recognizing their contribution to the City's identity, economic value, and quality of life: Policy LU 5.2 Infill and Replacement Housing. Accommodate new and renovated housing within existing neighborhoods that is consistent with contextual parcel sizes, densities, built form and scale.

Section 4. The City Council hereby amends Section 10-3-2804 of Article 28 of Chapter 3 of Title 10 of the Beverly Hills Municipal Code to read as follows with all other provisions in 10-3-2804 remaining in effect without amendment:

"No building or structure located on a site that is less than or equal to sixty feet (60') in width shall exceed three (3) stories or thirty three feet (33') in height.

In addition, no building or structure shall exceed the relevant height limitation imposed by districts A through C as identified on the height district maps adopted by the city council and on file in the office of the city clerk and in the department of planning and community development.

A. Height Limits of Districts: The following height limitation districts are hereby established in the multiplefamily residential zones of the city:

1. Height district A: Structures shall not exceed three

- (3) stories nor thirty three feet (33') in height.2. Height district B: Structures shall not exceed four
- (4) stories nor forty five feet (45') in height.
- 3. Height district C: Structures shall not exceed five
- (5) stories nor fifty five feet (55') in height.

### B. Exceptions

1. Rooftop Bathrooms: A maximum of two (2) rooftop bathrooms associated with rooftop swimming pools or spas may exceed the height limit of a building in an R-3, R-4, R-4X1, or R-4X2 zone, provided that:

 The maximum total area of all rooftop bathrooms does not exceed two hundred (200) square feet;

b. Such structures do not exceed ten feet (10') in height as measured from the adjacent roof deck;

c. Such structures do not exceed thirty three percent (33%) of the roof area upon which they are located;

d. Such structures do not exceed or intersect a line projecting from the perimeter of the roof upward at an angle of forty five degrees (45°) from the horizontal;

e. Pursuant to the provisions of article 28.5 of this chapter, the reviewing authority issues an R-4 permit upon a finding that the subject structures will not adversely affect the privacy of neighboring properties or access of neighboring properties to light, nor will the subject structures significantly increase noise to adjacent properties.

2. Additions to Buildings with Legally Nonconforming Height: If a legally constructed building located adjacent to the business triangle in an R-4 zone does not conform to the height restrictions set forth in this section, additions to existing dwelling units on the nonconforming story of such building may exceed the height restrictions set forth in this Article provided that:

 The additions do not exceed the maximum existing height of the legally nonconforming building as defined in Article 1 of this Chapter; b. The additions do not cause the nonconforming story of the building to occupy more than 40% of the floor area of the floor immediately below it;

c. The additions are compatible with the building design, the nearby streetscape, and surrounding development. To ensure compliance with this requirement, any additions proposed pursuant to this section shall be subject to the provisions of Article 30 of this chapter concerning architectural review;

d. The additions do not result in the creation of any new bedrooms;

e. The additions are not located in the rear 33% of the existing building footprint if the building is located on a property where the rear property line is adjacent to a residential zone; and

f. Pursuant to the provisions of Article 28.5 of this Chapter, the reviewing authority issues an R-4 permit upon finding that the additions will not adversely affect the privacy of neighboring properties, access of neighboring properties to light and air, or the integrity of the streetscape.

g. A public benefit is offered to the City that offsets any long-term impacts to the affordability of the City's housing inventory that result from the additions.

For the purposes of this exception, the 'business triangle' shall be defined as the area bounded by the centerline of Wilshire Boulevard, the centerline of Santa Monica Boulevard, south roadway, and the centerline of North Crescent Drive."
